- UX Research And Discovery
- AI-Integrated Workflow
- High-Fidelity UI Design
- Design Systems
- Usability Testing
- Translating Technical Needs
- Prototyping And Handoff
- Accessibility Basics

LANGUAGE

- Hebrew - Fluent
- English - Intermediate

ABOUT ME

Senior Product Designer with 6 years of experience leading end-to-end design from discovery and UX research to high-fidelity UI and delivery across B2C, B2B, and enterprise products. Combines deep solo ownership with 5 years of team leadership and cross-functional collaboration. Integrates AI into research and design workflows to move faster without sacrificing quality. Skilled at translating ambiguous, technical requirements into intuitive, business-aligned experiences and building scalable design systems that keep teams moving fast.

WORK EXPERIENCE

Senior Product Designer | Reasonlabs

2025-Current

- **Solo Product Lead:** Owned the end-to-end design lifecycle, from discovery and research to high-fidelity UI and delivery.
- **Strategic Partner:** Defined user problems and product roadmaps in direct collaboration with Product Managers.
- **Technical UX:** Translated complex cybersecurity requirements into intuitive, engaging B2C user experiences.
- **Dev Collaboration:** Synced daily with FE/BE engineers to ensure technical feasibility and high-quality implementation.
- **Design System:** Built and maintained a scalable system to ensure consistency and accelerate development.
- **Iterative Design:** Optimized product performance through stakeholder reviews and continuous feedback analysis.

Team Lead & Senior Product Designer | Triolla

2019-2025

- **Design Leadership:** Managed and mentored a team of 4 designers while leading complex projects from discovery to final delivery.
- **End-to-End Design:** Owned the design lifecycle, including UX research, persona mapping, wireframing, and high-fidelity prototyping.
- **Strategic Execution:** Aligned business goals with user-centric design strategies through design thinking workshops and agile methodologies.
- **Cross-Industry Expertise:** Delivered intuitive solutions for diverse sectors, including Fintech, Gaming, and Cyber.
- **Collaboration:** Partnered with Product Managers and developers to ensure design feasibility and high-quality implementation.
